5151 Thurs. Sept 11 1999

Dear Sir or Madam,

Each year many illnesses and deaths are caused by contaminated eggs. The FDA must do more than put bacteria warning labels on egg cartons. Since the FDA has jurisdiction to ban such farm practices as forced molting of millions of hens, this prudent step would prevent a primary cause of infectious diseases linked to contaminated eggs. Forced molting has been scientifically shown to promote disease by destroying the starving hens immune system.

I am asking you to support
